

DataSheet

With one of the widest ranges available on the market today, Commander® is firmly established as a true market leader. Time has proved these portable fire extinguishers as a dependable choice for almost any situation, and reliable performance is guaranteed. Furthermore the Commander 6ltr, 9ltr, 6kg and 9kg models now boast extremely high fire ratings as well as the British Kitemark Certification.

COMMANDER®

POWDER FIRE EXTINGUISHERS

Dry Powder fire extinguishers are highly effective and truly multi-purpose. With some impressive fire ratings, they are able to tackle nearly all types of fire, including direct use on live electrical equipment. Unlike foam extinguishers, they can be used on 'running' flammable liquid fires. Having an amazing initial knockdown, they boast enormous fire ratings – up to 55A on the 9kg unit. They can also be used outside with no additional freeze protection, in temperatures as low as -20°C.

We offer a 6kg unit with a fire rating of 43A 233B C, and a 9kg unit with a fire rating of 55A 233B C. The units are Kitemarked and come with our full 5-year warranty.
